The Sewer system

The sewer system will be completed in the next two or three days, says Engineer Edwards, who is finishing the work for he Government begun by the contractors. It was first proposed to make connections in the business district. Dr. Pratt, the new executive officer of the Board of Health, however, is desirous of putting in nnections first on the Liliha street sec ion and along King street where the Chinese colony has grown up in the last few months. These he believes are the mest important portions of the City to be drained into the sewer. The business district is sparsely inhabited, and there is not the class of refuse in it which is to be found in Chinatown. Furthermore, believes that the best test of the working of the sewer can be made in the Chines

LYING RUMOR OF POLITICAL **DISCHARGES ON WATERFRONT**

THE RUMOR HAS BEEN RIFE upon the street that the Oceanic Steamship Company discharged several of its dock laborers on Wednesday because they voted for Wilcox. This statement has been industriously circulated by the Independent leaders, with much denunciation of the haole,

auggestion was simply to take away a A representative of this paper waited upon Mr. Giffard, manager of W. G. ittle of the power of the inspector Irwin & Co., yesterday and asked him if the statement was correct. Mr. Giffard replied with manifestation of considerable feeling, "You can say

from me that there is not a word of truth in the statement. Yesterday morning when the laborers came onto the dock to unlead the Alameda, a subordinate of Mays the Mr. Louis was when we saw that the Board of the company, a timekeeper, was engaged in discussion over the political situation and reproached two of the men for having voted for Wilcox. Nothing was said Their peculiar position made us all about discharging them, and no men were discharged. Several of the men were angry, and then we had in mind the under the influence of liquor and went away themselves. Several more tried to artificial limbs in idea of doing away with the regula- work but were so drunk that they had to be laid off to sober up. There has been tions entirely. We determined that it and is now no suggestion of discharging any man by reason of the way he votshould not go any further. We desired ed, and so long as I have any say in the matter no such policy will be pursued."

Bryanites Will Buy The Republican.

THE DEAL TO BE MADE SOON

Humphreys' Paper Said to be Offered at a Low Rate to the Braves.

The Democrats of Honolulu are to have a daily paper if the desires and intentions of the local braves who possess wampum are fulfilled.

It was current talk at Democratic headquarters and on the street yesterday that the Democrats will buy the Republican, a morning paper started here some months ago.

The Democrats have for many months wanted an organ and during the campaign felt the want of it very badly. At one time it was said offers were made to F. J. Testa to purchase the Independent but its owner held it too

high for the Democrats. Again it was whispered that the Bulletin was to be acquired by the Bryan men but this too proved a rumor only. Now it is stated on excellent authority that the Republican will go to the Democrats within the next few weeks. 13 It is understood that the editor of the Maui give Wilcox on that Island, new organ is already here and that its business manager, recently came from

The paper, according to report, will be an eight-page daily of neater appearance than the Republican and will be strong ir, its advocacy of the Bryan theories. Prince David, Charles J. Mc-Carthy, E. B. McClanahan, W. A. Kinney and others, are understood to be which, it is believed will file papers WILCOX 2367 within the next few days.

The present stockholders of the Republican are anxious to be relieved. They are disgusted with the management of the paper during the campaign and a number of them have boldly expressed themselves as determined to withdraw from any connection with has been quoted as saying that the the Republican as soon as possible.

Circuit Judge Humphreys controls jority of its stock and his ideas of the paper's general policy are understood to be opposed to those of the well known business men who own a minority of the stock.

The Republican has been a losing venture for its backers and, with no profits in sight and nothing else to be gained by continuing the paper on its present lines, the Democrats will be given an opportunity to get it at an attractive figure.

RAPID TRANSIT COMPANY PLANS

Track Will be Laid Along Wilder Avenue and Work Pushed Rapidly.

The Rapid Transit Street Railway Company will commence laying its tracks from Punahou next Monday. The tracks will be laid along Wilder evenue and thence down to the power house on Alapai street near Beretania. This section will be pushed rapidly and the extension to the Liliha street with the Punahou section.

The power house is going up rapidly and within three months the manager expects to have his machinery housed and in readiness to turn power into the trolley wires. Poles for the latter are being put into position along the streets cific cable will be laid during the comand wire will be strung when all are in

The company has a full complement of track-laying implements, consisting of plows, rollers and scrapers. The rails and ties are here. This section of the work is about the heaviest to be done in putting the system into shape to commence running its cars. Manager Ballentyne believes that by March the first car will be run over the road.

... POLICEMAN HURT.

Street Department Said To Be at Fault in Palama.

Lieutenant Leslie of the Mounted yet prove a serious accident.

The officer was on his way to th tion house just before midnight, about time, is the way Mr. Case sums up the to take the morning watch, and was situation. coming from Palama, along King street, when his horse, unable to see for of the road.

Leslie was thrown violently from his horse onto the stones, sliding a good carried on in boats.

distance on his face and breast. He was badly bruised and cut in places and injured his legs, to what extent is not yet precisely known. He was just able to get back on his horse and managed to get to the police station where he was looked after and received medical attention. This pile of rocks was right opposite the pumping station, near the car stables. That no lives have been lost by the presence of so dangerous an obstacle is said to be no fault of the Street Department.

----Kona Storm Predicted.

The indications now are that a "Kona storm" may be brewing, although it is rather early to look for one of these southerly gales, which are peculiar to this latitude. There has not been a very severe "Kona storm" here for several years past. Native seamen can often predict the advent of one several days before it sweeps over the group. Generally they are of short durationtwo, three or four days-though old residents can recall some stretchings over a period of one or more weeks.

PARKER'S FULL VOTE ON OAHU

Did Queen Vote for Wilcox? Colonel Soper's Views on Election.

The full figures of the vote on Oahu are as follows for the Fifty-sixth Con-

4th Dist. 5th Dist. Total. Parker 1380 Wilcox 879 Kawananakao ... 466 320 Parker's plurality over Wilcox, 249. For the Fifty-seventh Congress the

4th Dist. 5th Dist. Total. Parker 1381 Wilcox 1983 Kawananakoa ... 476 319

Parker's plurality over Wilcox, 235. The returns so far received from plurality of 24 over Parker for the Fifty-sixth Congress, and a plurality of 12 for the Fifty-seventh Congress. So that the returns to date give the following figures for the Fifty-sixth

Congress: PARKER 2595 WILCOX 2370 Parker's plurality 225 For the Fifty-seventh Congress the the backers of the coming corporation PARKER 2599

Parker's plurality 233 WHAT THE QUEEN DID.

Yesterday's Star intimated that Liliuokalani had favored Wilcox during the campaign and not Prince David. The Star says, "Samuel Parker, the Republican candidate against David, prince was thrown down and thrown down not by his own party, but by the paper at present through a ma- his own flesh and blood-the Queen. The Star has a lengthy article on the matter headed, "DID THE QUEEN KNIFE DAVID?"

The Star says: The Queen was waited upon this morning for a statement regarding the report. She asked to be excused, as she was engaged. She spoke the truth, icr at that moment she was convers or with Robert Wilcox, the Independent candidate for whom she is alleged to have betrayed her nephew. Mr. Wilcox was asked about the re-

port and said, "While I think the sympathies of the Queen were with the Independent party, I don't think she aid anything toward helping us win. She is out of politics and I don't think she sent any emissaries or anybody else about to get the people to vote ior us. She said that she did not favor David's candidacy on account of his being too young. She thought that he ought to first become a member of our Legila ture here and get some experience in legislative affairs before he wanted to be Congressman. He disregarded her though and became a candidate. My conversat n with the Queen today was nothing out that of a social visit. I called to pay my respects. I told her how the election stood. We did not talk over what policy I should pursue at Washington nor did she say anything to me about working to aid ner

Soper, who returned to Honolulu on the Alameda, after spending several weeks on the Coast. The colonel states division will be put in simultaneously that the business men on the Coast generally favored the re-election of McKinley. Those who had been among the residents of the farming districts and among laborers sounding them on their politics, found them favoring the Republican ticket.

In Colonel Soper's opinion the Paing McKinley administration. The commercial interests of the nation demand that the Islands be connected with the Mainland, and with McKinley in, the cable is assured.

Capital and business were being held in abeyance awaiting the result of the election. The men with big purse strings are disinclined to make investments until the election is settled. Should Bryan go in by some unforeseen circumstance, capital will be tied up and contracts will be declared null and

Dan H. Case, the court stenographer, who recently returned from his native State, Kansas, has his doubts as to the outcome of the election. Although a good Republican himself, he hails from a State that has known populism for years, and his sight may have been Patrol met last night with what may clouded by its presence. He says the election will be a close one. He places Indiana in the Bryan list. As New

Towns in the northern part of London the intense darkness, ran headlong in- were flooded on October 27. Some of the to a large pile of stones left there, railroads were impassable and others had without a light, to be used in the repair water up to the floors of the cars. At Newcastle, Hartlepool, Stockton and South Shields people sought refuge in the upper stories of houses and traffic was
